DD/A/ODP WEEKLY REPORT

Week of 1-18 February 1981

Handwritten notes and signatures in the top right corner, including initials like "CB", "B", "C/P", and "M".

I. Major Activities During the Past Week: (U)

A. Support to PTO:

CAMS (COMIREX Automated Management System) The Request For Proposal (RFP) for the development of CAMS2 Processing Segment (P/S) was released by OL/Procurement Division on 12 February. The two day delay was caused by using erroneous company addresses. OL Proc. Div. retrieved the RFP and readdressed them. Additional corporations have requested a copy of the RFP. Additional copies have been delivered to OL/Procurement Division for dissemination to the requestors. [redacted] (AIUO)

STAT

B. Support to OPPPM:

FTE (Full-Time Equivalency) We presented the System Design paper to ADRB [redacted] on 12 February. The paper was very well received and will undergo very minor changes. [redacted] has informed us that they approve of the Project Proposal with the amendments stated in the System Design paper. [redacted] (U)

STAT

STAT
STAT

C. Support to OF:

BIWEEK PAYROLL SYSTEM. Program modifications will start this week to create T0 in the ETAR system and process T0 in the PAYCOMPUTE cycle for intermittent and part-time employees who are stationed overseas and to process employees using a new overseas pay schedule. [redacted] (U)

STAT

We completed modifications of Payroll to incorporate the new FEGLI optional plans. The program passed the code review and program test and is now ready for the system test which is scheduled for 16 March. [redacted] (U)

STAT

D. Support to OGSF:

CARTDEV (Development of New Cartographic Programs) A review for CARTDEV covered the status and priority ordering of tasks. The ordering was accepted as presented. A memorandum for OGSF from the DD/A/ODP was prepared indicating that ODP anticipates problems in support a two-man year effort in FY 83. [redacted] (U)

E. Support to OL

PDMIS (PM Management Information System) The GIMS Review Board reviewed the PDMIS on 11 February. The purpose of a GIMS review is to determine the impact of proposed GIMS systems on the performance of the entire GIMS data base environment. The main topic discussed was the technique for electronically transferring data between the PDMIS, ICS, and CONIF data bases. A meeting will be scheduled within the next few weeks to resolve issues raised during the review. These issues should not impact on the PDMIS implementation date of 1 October 1981. (U)
